PACIFIC PRESS OPINIONS.

Tacoma News, Dem.: The Wilson bill is the most honest tariff reform bill presented to congress since the Walker tariff. It will delight the heart of every true tariff reformer in the land. When put into law it will start a thous- gon's Tribute to Ohio's Governor-Five and new industrial institutions and bring greater prosperity to thousands already established.

Tacoma Ledger, Rep.: Solid silver dollars, not minted by the government and a triffr heavier than the genuine dollars, have made their appearance in West Virginia, and the people take them and pass them along as readily as if they were the most orthodox coins ED. J. ever minted.

Portland Telegram, Dem : Now they say the party lines are going to be Damocratic party lines. The Republitha Democrats refuse to go into caucus and suffer themselves to be hauled around by the big boss in the White House they needn't look for anything but demoralization.

Astoria Budget: Hereafter every person applying for land under the homestead laws, who is a naturalized citizen of the United States, or who has declared his intention to become a citizen, will be required to file with his application a duly certified copy of his certificate of naturalization, or of his dec'aration of intention, as the case may be. These are the instructions of the honorable commissioner of the general land office, and they will be quickly resents interference. Good for strictly observed.

Scattle Telegraph, Dem.: The session of congress, which will open on Monday next, will be one of the most important that has taken place in the recent history of the country. Upon the action that will be taken in regard to the tariff the whole future policy of this country depends. If the tariff bill passes in its present form we may look forward hopefully, as time progresses, to further changes in the matter of freeing trade of artificial restrictions. In the end this country must have free trade.

Seattle Post-Intelligencer, Rep.: The proposed tariff is nothing but the Mills bill; it is a sectional tariff, whether it includes an income tax or not. The internal revenue tariff is not meddled with because the South does not relish any more tax on whisky and tobaceo; for Vice President, Robert Lincoln, of the new tariff places cotton ties on the Hillinois. Bill and Bob are good.] ED. free list, despite the fact that they never were so cheap as they have been under the McKinley tariff. The South wants an income tax because it is a bid for the Populist vote, but we have had the income tax in war time once; in peace it will rain any party that adopts

'Frisco Chroniele, Rep.: If protection is not only a fraud, but unconstitutional, why should the Democratic party continue the bounty on domestic sugar for eight years, with a progressive reduction of one eighth each year? Why should California fruits be protected against foreign competition? Why should there be any import duty retained on refined sugar, even though it be reduced from one-half to one-fourth of a cent per pound? Why should manufactures of wool be charged 35 per cent duty ad valorem? Why should steel rails be charged \$8 or \$8 a ton, or manufactures of cotton 40 per cent ad valorem or dress goods for women and |linery, December 34 at the Ladies' phildren 40 per cent?
